## ALFALFA FOR FALL TRADE

New crop seed from the early-producing districts may not be available for the early Fall trade because of too much rain.

Suggest you anticipate your requirements and order now while we have a good selection. To save delay, always name substitute origin should we be out of your first choice.

We recommend, as an excellent origin at a reasonable price Colorado Alfalfa. At a lower price, see the New Mexico, hardy, from high altitude and old-established fields.

Will again have Argentine Alfalfa; ready to book orders now for late August delivery.

## OUR NEW ST. LOUIS PLANT

Convenient location: just south of Municipal (Free) Bridge—near truck depots, railroads, wholesale district—out of congested area.

Ample truck-loading space—**off the street**—with free parking lot. Two entrances—Fourth or Third St.—to platform which can serve 22 trucks at a time.

Railroad trackage alongside building. Bulk unloading provided for. Building contains 125,000 square feet. Newest types cleaning machinery, with arrangement for quick, efficient, economical handling and cleaning of seeds.

Large, modern, daylight seed-testing laboratory to control buying, cleaning and preparation of seeds to meet and surpass requirements of the Federal and various State seed laws.

St. Louis is close to the producing territory of a wide assortment of Grasses, Clovers, Beans, Peas and Forage seeds, enabling us to offer first-hand at low prices.

In addition, we operate our large cleaning and storage plant at Atchison, Kansas, for handling and cleaning seeds originating in that area and the West. Atchison is in the northeast corner of Kansas, just across the Missouri line, in the center of the Blue Grass producing districts of Missouri, Kansas, Iowa and Nebraska.
